

January 30 - February 1st, 2020
Lausanne, Switzerland

"Demonstrators were all excellent. Also it was a privilege to have mannequins and patients who allow us to scan them"

"Fantastic course, learned a lot, good hands-on advises"

"Keep it up, excellent!"

What past participants said about TINEC:

Dear neonatologists and pediatric intensivists,

It is our great pleasure to invite you to the **5th Extended Course** "Training in Pediatric Intensive Care and Neonatal Echocardiography" (TINEC) organized jointly by pediatric cardiologists, intensivists and neonatologist from the University Hospitals of Lausanne, Geneva (Switzerland) and Cambridge (United Kingdom).

The Extended course is designed for practitioners who have already some basic echocardiography training. It will consist of lectures as well as interactive cases and hands-on workshops in small groups and practice **on real patients** with cardiac pathology and mannequins.

This year special sessions will be also done, by local and international faculty, on lung and abdominal ultrasound and line placement.

Registrations are open now at www.tinec.org: NEW registration fees! Take advantage of the Early Bird fee until 6 December 2019!

The TINEC course is endorsed by ESPNIC and AEPC working group.

We look forward to welcoming you to Lausanne in 2020. Warm regards,

TINEC 2020 Organizing Committee
